

Westside Women's Care Financial Policy during Pregnancy

Westside Women's Care follows a global billing model for your obstetric care. This means that all of your visits as well as your deliver, will be billed at the time of your delivery. Some services throughout your pregnancy must be billed to insurance as they are performed per insurance policies. This includes (but is not limited to): ultrasounds, non-stress tests, blood draws, injections, hospital encounters prior to delivery, etc. Often, these services will be applied to your deductible and will be your patient responsibility.

When you are checking out, our reception desk will inform you if there is a balance due. You will also receive bills in the mail. We require that any and all balances be paid in full no later than your 36th week of pregnancy. Payment plans can be set up in early pregnancy for your convenience.

We truly appreciate the opportunity to provide care for you and your baby. Please do not hesitate to contact our billing department at any time if you have any questions at 303-424-6466.
